INDEX

ABELL, R. G., AND I. H. PAGE. Behavior of the arterioles in hypertensive rabbits, and in normal rabbits following injections of angiotonin (abstract), 293.

Acetylcholine, action on intestine of Daphnia magna, 105.

Action potential, related to protoplasmic streaming in Nitella and Chara (abstract), 296.

Activation of Cumingia and Arbacia eggs by bivalent cations, 261.

ADDISON, W. H. F. The distribution of elastic tissue in the arterial pathway to the carotid bodies in the adult dog (abstract), 293.

Adrenaline, hypersensitization of catfish melanophores to, by denervation (abstract), 302.

ALLEN, T. H. *See* Bodine and Allen, 388.

Allometry in normal and regenerating antennal segments, Daphnia, 119.

Alopias vulpinus, interrenal body (abstract), 299.

ALSUP, F. W. Photodynamic studies on Arbacia eggs (abstract), 297.

Amaroucium constellatum, regeneration in early zoöid (abstract), 287.

Ameiurus melas, rôle of hypophysis in melanogenesis, 352.

Ammonia, utilization of, by Chilomonas (abstract), 285.

Amoeba verrucosa, cytology of (abstract), 299.

ANDERSON, B. G., AND H. L. BUSCH. Allometry in normal and regenerating antennal segments in Daphnia, 119.

Androgenetic eggs of Triturus viridescens, 402.

Angiotonin, effect on arterioles, hypertensive and normal rabbits (abstract), 293.

Annual report of the Marine Biological Laboratory, 1.

Ant colonies, founding of, 392.

Antifertilizin and fertilization, sea-urchin eggs, 364.

Arbacia egg, cleavage, acceleration of, in hypotonic sea water (abstract), 288.

—— ——, intracellular pH (abstract), 305.

—— ——, lipo-protein complexes in (abstract), 296.

—— ——, lipo-protein complexes in (abstract), 296.

—— ——, permeability to potassium (abstract), 295.

—— eggs, effect of centrifugation on oxygen consumption (abstract), 303.

—— ——, photodynamic studies on (abstract), 297.

—— larva, ectodermization of (abstract), 304.

—— punctulata egg, centrifuged, vital staining of, 114.

—— —— eggs and sperm, intermediary carbohydrate metabolism before and after fertilization (abstract), 289.

—— sperm, effect of sea water on radiosensitivity of (abstract), 282.

Arterioles, behavior following injections of angiotonin, in hypertensive and normal rabbits (abstract), 293.

Ascidian larvae, metamorphosis (abstract), 286.

Atropine, action on intestine of Daphnia, 105.

Auditory vesicle, induction, effect of differences between stages of donor and host upon, from foreign ectoderm in salamander embryo (abstract), 306.

Axon, giant, of squid, rectifying property of (abstract), 277.

Azide, effect on Cypridina luciferin (abstract), 283.

BALL, E. G. The source of pancreatic juice bicarbonate (program title only), 277.

BARRON, E. S. G., AND J. M. GOLDINGER. Intermediary carbohydrate metabolism of eggs and sperm of Arbacia punctulata before and after fertilization (abstract), 289.

BARTH, L. G. *See* Goldin and Barth, 177.

BENEDICT, D. *See* Navez, Crawford, Benedict and DuBois (abstract), 289.

Bicarbonates, catalysis of ionic exchanges by (abstract), 294.

——, rôle of carbonic anhydrase in catalysis of ionic exchanges (abstract), 294.

BIRMINGHAM, L. Regeneration in the early zoöid of Amaroucium constellatum (abstract), 287.

Blastoderm, chick, respiratory rates of different regions during early stages (abstract), 283.

Blood, effects of desoxycortico-sterone and related compounds on mammalian red cell (abstract), 295.

——, equilibrium between hemoglobin and oxygen of whole and hemolyzed, tautog, 307.

——, heat produced by, of Tautoga and Mustelus (abstract), 305.

BODINE, J. H., AND T. H. ALLEN. Enzymes in ontogenesis (Orthoptera). XIX. Protyrosinase and morphological integrity of grasshopper eggs, 388.

Bresslaua, feeding mechanisms and nutrition in, 221.

BROOKS, M. M. Further interpretations of the effects of CO and CN on oxidations in living cells (abstract), 284.

BROWN, F. A., JR., AND O. CUNNINGHAM. Upon the presence and distribution of a chromatophorotropic principle in the central nervous system of Limulus, 80.

BUSCH, H. L. *See* Anderson and Busch, 119.

CABLE, R. M., AND A. V. HUNNINEN. Studies on the life history of Siphodera vinaledwardsii, a trematode parasite of the toadfish (abstract), 279.

Carbonic anhydrase, rôle in catalysis of ionic exchanges by bicarbonates (abstract), 294.

Carbohydrate metabolism, intermediary, of Arbacia eggs and sperm before and after fertilization (abstract), 289.

CARLSON, L. D. Enzymes in ontogenesis (Orthoptera). XVIII. Esterases in the grasshopper egg, 375.

Catalysis of ionic exchanges by bicarbonates (abstract), 294.

—— of ionic exchanges by bicarbonates, rôle of carbonic anhydrase in (abstract), 294.

Catfish melanophores, responses to ergotamine, 163.

——, rôle of hypophysis in melanogenesis, 352.

Cations, bivalent, activation of Cumingia and Arbacia eggs by, 261.

Cell oxidation, effects of CO and CN (abstract), 284.

Cellular respiration, fractionation by narcotics (abstract), 282.

Central nervous system of Limulus, localization of neurosecretory cells, 96.

Centrifugation, effect on oxygen consumption of Arbacia eggs (abstract), 303.

Chaos nobilis Penard in permanent culture (abstract), 303.

Chara, protoplasmic streaming and action potential (abstract), 296.

CHASE, A. M. Effect of azide on Cypridina luciferin (abstract), 283.

——, —. —. Observations on luminescence in Mnemiopsis (abstract), 296.

Chilomonas paramecium, ammonia utilization (abstract), 285.

Chromatin bridges and irregularity of mitotic coördination in Peromatus notatus, 149.

Chromatophorotropic principle in central nervous system of Limulus, 80.

Ciliary movement, coördination of, in Modiolus gill (abstract), 290.

Ciliates, thiamin synthesis by (abstract), 285.

CLAFF, C. L., V. C. DEWEY AND G. W. KIDDER. Feeding mechanisms and nutrition in three species of Bresslaua, 221.

CLARK, L. B. Factors in the lunar cycle which may control reproduction in the Atlantic palolo (abstract), 278.

CLAUDE, A. Chemical composition of mitochondria and secretory granules (program title only), 286.
Cleavage, acceleration of, in Arbacia egg, in hypotonic sea water (abstract), 288.
Clymenella, implants of young buds formed in anterior regeneration and nerve cord of adjacent old part (abstract), 302.
CN, effects on oxidations in living cells (abstract), 284.
CO, effects on oxidations in living cells (abstract), 284.
COE, W. R. Sexual phases in wood-boring mollusks, 168.
Colchicine, disruption of mitosis by, in Colchicum (abstract), 297.
Colchicum, mitosis disrupted by colchicine in (abstract), 297.
COLE, K. S. *See* Guttman and Cole (abstract), 277.
CORNMAN, I. Characteristics of the acceleration of Arbacia egg cleavage in hypotonic sea water (abstract), 288.
——, —. Disruption of mitosis in Colchicum by means of colchicine (abstract), 297.
Crangon armillatus, moulting, factors influencing, 215.
CRAWFORD, J. D. *See* Navez, Crawford, Benedict and DuBois (abstract), 289.
Crayfish kidney, urine-formation by, as shown by secretion of inulin, xylose and dyes, 235.
——, micturition in, 134.
——, nephric tubule, outward secretion of water by, 127.
Culture, permanent, of Chaos nobilis Penard (abstract), 303.
Cunner, melanophore control (abstract), 300.
CUNNINGHAM, O. *See* Brown and Cunningham, 80.
Cynthia partita, larva of, "eye-spot" and light responses (abstract), 287.
Cypridina luciferin, effect of azide on (abstract), 283.

DAPHNIA, allometry in normal and regenerating antennal segments, 119.
—— magna, effect of acetylcholine, atropine and physostigmine on intestine, 105.
DAVSON, H. *See* Shapiro and Davson (abstract), 295.
Decomposition and regeneration of nitrogenous organic matter in sea water, 63.
Desoxycortico-sterone, effects on mammalian red cell (abstract), 295.
Development, time-temperature relation of different stages of, 431.
DEWEY, V. C. *See* Claff, Dewey and Kidder, 221.
